

HPD UNIQUE IDENTIFIER: 29057

CLASSIFICATION: 09 68 13 Tile Carpeting

PRODUCT DESCRIPTION: Modular carpet tile offers multiple possibilities of installation to create the residential and commercial textile floor covering. It can be produced with four yarn options (nylon, polypropylene, polyester and ECONYL®) and two options for secondary backing (with recycled content or not).

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:

Special conditions applied: GeologicalMaterial

[LEED v4] "Yes ex/SC" result is due only to materials and substances for which Special Conditions were applied. Thus "Yes ex/SC" does not disqualify the product for the LEED v4 Materials and Resources Disclosure and Optimization credit, Option 1.

HPD prepared using a Nested Materials Inventory with a product threshold at 1,000 ppm. Venture Carpets include a many options of materials. It was chosen in this HPD to group carpets with four yarn options (nylon, polypropylene, polyester and ECONYL®) and two options for secondary backing (with recycled content or not). Ranges represent those variations. More details about how residuals and impurities were considered are available in the appropriate sections. Special Conditions materials are present in the product: reaction polymer products. Guidelines for reporting Special Conditions materials are still under development by HPDC and the manufacturer will update the HPD accordingly once these guidelines get published. The exception for proprietary ingredient due diligence as stated in the HPD Content Inventory Requirements document has been used for this HPD. A proprietary substance present in the final product at or below 0.20 wt.% was not declared as the information was not obtained from the supplier.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-2-standard

NYLON 6 ECONYL YARN RECYCLED

#: **0.0000 - 18.4000**

PRODUCT THRESHOLD: 1000 ppm RESIDUALS AND IMPURITIES CONSIDERED: Yes MATERIAL TYPE: Polymeric Material

RESIDUALS AND IMPURITIES NOTES: Residuals are below the declaration threshold and impurities are not present.

OTHER MATERIAL NOTES: This HPD covers four (4) yarn option: Nylon, Recycled Nylon, Polyester and Polypropylene yarn. Weight percent interval is used to cover carpets with the various yarn types and variation in carpet densities.

CERTIFICATION AND COMPLIANCE NOTES: The Life Cycle Assessment (LCA) and Environmental Product Declaration (EPD) were prepared by Vertima. The EPD was third party verified by the Athena Sustainable Materials Institute and published by CSA with registration number 4029-8012.			

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

ACRYLIC BINDER	HPD URL: No HPD available
CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: An acrylic binder, such as the Ultrabond EC0810, is required to install the carpet. Venture recommends following the installation procedures from the Carpet and Rug Institute.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
